

**International conference**  
**History of the neutrino**  
**September 5-7, 2018**  
**Paris, France**

**List of accepted Posters**

Henry T. Wong (Academia Sinica, Taipeh) / The TEXONO Neutrino Program in Taiwan and Beyond

John M. Lo Secco (University Notre Dame du Lac, Indiana) / Discovery of the Atmospheric Neutrino Anomaly

Alexander Parada (Universidad Santiago de Cali, Columbia) / Some historical aspects about the coherent elastic neutrino-nucleus scattering

Francesco Ronga (Frascati, Italy) / Neutrino oscillations: personal recollections focused before the Kajita's talk in 1998

Igor Zheleznykh (INR Moscow) / The Soviet DUMAND Program and development of alternative large-scale Neutrino Telescopes

Anatoly Smolnikov (Heidelberg and Dubna) / Fifty years of searching for neutrinoless double beta decay with Ge detectors

François Vannucci (LPNHE & APC, Paris) / The JURA experiment: the first H.E. long-baseline oscillation search
